

3-Way HDMI switch box

General information

- HDMI 1.3 compliance, offering higher data rate, single-link bandwidth, colour bit depth and more HD audio formats
- Simultaneous connection of up to 3 HDMI sources to one HDMI-equipped display
- Eliminates the cable clutter
- Easy to switch between HDMI sources via front panel buttons or remote controller
- Low cost solution for home theater integration
- Supports HDTV resolutions of up to 1080p, maintaining beautiful and sharp video
- With build-in input signal equalizer and output preamplifier, HDMI cable can run up to 20 meters (from original source to display) even at deep colour resolutions
- Supports DDWG (Digital Display Working Group) standard for HDMI compliant monitors
- Supports DDC (Display Data Channel), CEC (Consumer Electronics Control) and HPD (Hot Plug Detect)
